

CRM FISSION 域名更換後的調整項目

- 系統更換域名後需調整 [Line 開發者平台](#) 的相關設定：

(1) 於「[Line 開發者平台](#)」於 LINE Login 新增正式網址到 Callback URL

TOP > 金好吃餐飲集團 > 金好喝 > LINE Login

Require two-factor authentication when a user logs into this channel.

- LINE Login performs two-factor authentication by password authentication for the LINE account and entering the verification code displayed on the screen into the smartphone's LINE screen. Therefore, you need to inform your users that they'll need the smartphone version of LINE when they first log in.
- Once logged in with two-factor authentication, the browser will remain trusted for one year and won't ask for the authentication code.

For more information on two-factor authentication, see the [documentation](#).
